

How the building foundation construction

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

(Mitchell Kuhn III)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 12246 Publisher: China Electric Power Press Pub. Date :2009-03. book based on the country s existing Building Foundation engineering related design. construction. inspection standards are written. Book from the actual application. the use of how to do question and answer format. summarized the earthworks. ground treatment. foundation reinforcement. pile foundation. excavation. engineering geological exploration and other aspects of common problems and common knowledge. Book for building foundation engineers. construction personnel reference. but also teachers and students of institutions of higher learning as relevant professional reference book. Contents: Preface Chapter earthworks section of foundation soil classification and engineering characteristics of index 1. How to conduct soil engineering classification? (2) rock which can be divided into several categories? 3 What are the characteristics of rock? How to conduct the classification of rocks? 4 What are the characteristics of soil gravel? How the gravel into the soil? 5 What are the characteristics of sand type soil? What sort of sandy soil? 6 What are the characteristics of cohesive soil? How to conduct the classification of clay? 7 What are the characteristics of silt? What classification of silt? 8 How to fill the artificial classification? Section 9 of foundation engineering properties of soil. No sticky soil density refers to what? 10 clay plasticity index refers to what? 11 soil particle composition refers to what? 12 soil permeability index refers to what? 13 How that the compressibility of the soil? How to determine the soil compression index? 14 What is the soil shear strength? 15 What is the mechanical properties of soil? Four Satisfaction guaranteed, or money back.
